Galvanized wire mesh (hot dip)

Galvanized wire is not a metal or alloy; it is a process in which a protective zinc coating is applied to steel to prevent rusting. In the wire mesh industry, however, it is often treated as a separate category because of its wide spread use in all types of applications. Some of the most popular uses and applications of galvanized wire mesh are listed below:

Want to purchase Galvanized **wire mesh** from the manufacturers and whole seller, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions.

Galvanized wire

Standard length of rolls = 50ft (15mtr)

Sizes which are available

- 2ft (609mm)
- 2 ½ ft (762mm)
- 3ft (914.4mm)
- 3 ½ ft (1066mm)
- 4 ft (1219.2mm)
- 5 ft (1524mm)

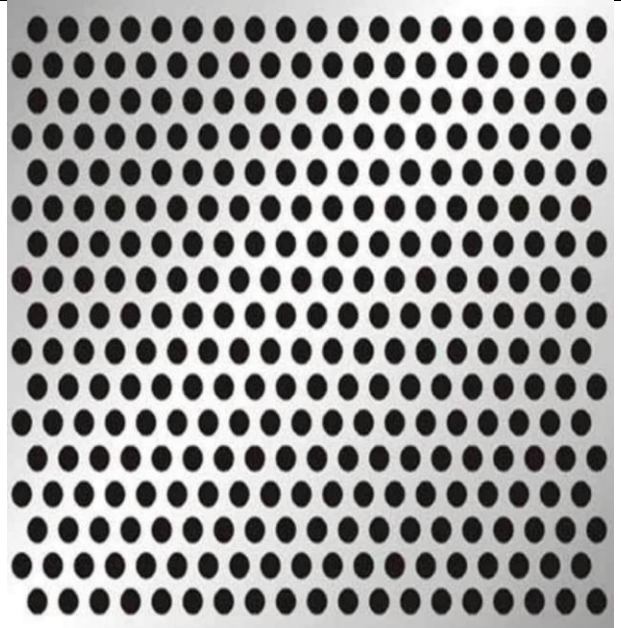

Wire gauze availability = 0.25mm to 1mm

USES:-

- Fencing and caging
- Farm, garden & agricultural use
- Window
- Archeological use

Perforated Sheets

Perforated Sheets Perforated sheet pattern used in the present times. These perforated sheets are economical, versatile and have a strong aesthetic appeal. They are Light weight and offers Rust resistance. It also provides ventilation of air, light, sound and gases. The Round Hole Perforated Sheet is put to a wide variety of usages like cladding and ceiling panels, sunshades and sunscreens, decorative banister, balcony panels and more. Want to purchase perforated sheet from the manufacturers and whole seller, **then VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions

Perforated Sheets

Sizes in availability

Roll shape

Wire gauze availability = 0.3mm to 16mm

Holl size = 0,5mm to 10mm

Length =3*40 feet (914.4mm*12192mm)

4*40 feet (1219.2mm* 12192mm)

Sheet

Wire gauze availability = 0.3mm to 16mm

Holl size = 0.5mm to 10mm

Length =3*8 feet (914.4mm* 2438.4mm)

4*18 feet (1219.2mm*5486.4mm)

Metals

- **G.i (galvanized)**
- **M.s (mild steel)**
- **AL (aluminum)**
- **S.S (Stainless Steel)**

Uses

- agriculture,
- mining operations
- aerospace technology
- audio equipment,
- lighting,
- security applications

Mosquito Wire Mesh

Mosquito wire mesh

Door screens: these mesh/screens are used for main door/ balcony doors/ kitchen utility doors or any doors where there is a chance for mosquitoes to enter. Perfect magnetic fastening –(a combination of 26 magnets ensures quick open and automatic close.) It is much better than plastic snaps. The magnets are built-in and hidden from view which can avoid noise when you go through the screen door

Keep mosquito's out- this is an innovative screen door to keep your family from annoying mosquito, flies and insects. With this magnetic screen door installed, your place is filled with natural air and breeze. You can easily pass through without hands as it can open and close automatically. It also allows toddlers and pets to go through. You do not have to open and close the door a hundred times for them. It doesn't hurt kids or pets in any way

Mosquito wire mesh

Want to purchase ***mosquito wire mesh*** from the manufacturers and whole seller, then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions

Sizes in availability

Standard length of rolls =50ft (15mtr) and 100ft (30m) in All type of Metal

Sizes which are available

- 2ft (609mm)
- 2 ½ ft (762mm)
- 3ft (914.4mm)

- 3 ½ ft (1066mm)
- 4 ft (1219.2mm)
- 5 ft (1524mm)

Wire gauze available = 0.3mm to 1mm

Metals

- **PVC (polyvinyl chloride)**
- **M.S (mild steel)**
- **AL (aluminum)**
- **S.S (stainless steel)**

USES:-

- Homes
- Hospitals
- Buildings

Stainless Steel Wire Mesh

It is one of the most popular metal wire mesh in the market and widely used in all sectors. Stainless steel mesh is the most popular woven screen in the industrial world. It is known for its corrosion resistance and strength. Stainless steel wire mesh contains chromium and nickel in addition to steel. It comes in various grade ss 201 ss 202 ss 304.

Stainless Steel Wire Mesh gives the most resistive railings as it wears resistivity of heat, acid, and corrosions, etc. The high resistivity makes its applications in a wide range such as mining areas, chemical industries, food industries, and pharmaceutical industries.

Want to purchase **stainless steel wire mesh** from the manufacturers and whole seller, then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions

Sizes in availability

Standard length of rolls = 50ft (15mtr) and 100ft (30m)

Sizes which are available =

- 2ft (609mm)
- 2 ½ ft (762mm)
- 3ft (914.4mm)

- 3 ½ ft (1066mm)
- 4 ft (1219.2mm)
- 5 ft (1524mm)

Wire gauze available = 0.1mm to 4mm

USES;-

- Industrial sieves
- Chemical filters
- Architectural decoration

Red copper woven cloth

Being one of the prominent manufacturers, Red copper woven wire cloth suppliers & exporters, we can easily entertain the requirements of the varied clients.

Want to purchase redcopperwovenclothfrom the manufacturers and whole seller, and then VARSAWIRENETTING is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions

Sizes in availability

Standard length of rolls =50ft (15mtr)

Sizes which are available

- 3ft (914.4mm)
- 4 ft (1219.2mm)

Mesh size= 5mesh to 280 mesh

Uses

- Shielding
- Papermaking
- Filter industries.

Wire Mesh Filters

Want to purchase **wire mesh filters** from the manufacturers and whole seller, then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions.

Standard length of rolls =every size available

Sizes which are available = every size available (square and rectangle)

Sizes in availability

Wire mesh filter has a greater number of fine wires in the Shute direction and is woven in both plain and twill weaves patters. It is normally rated by the size particle it will retain, either as the absolute micron rating or the nominal micron rating, expressed in microns.

Uses

- Plastic Extruder
- Scientific Research
- Extrusion process
- HVAC Air Conditioning Plants

Phosphorous bronze woven wire cloth

The phosphorous bronze woven wire cloth can be used in the insect screen or window screen. The phosphorous bronze woven wire cloth can be used in the industries to filter various grain, powders, china clay and glass. The phosphorous bronze woven wire cloth can be used as filter for liquid and gas. It can be used in the papermaking industries.

Want to purchase **phosphorous bronze woven wire cloth** from the manufacturers and whole seller, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specification in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions

Sizes in availability

Standard length of rolls = 50ft (15mtr)

Sizes which are available

- 3ft (914.4mm)
- 4 ft (1219.2mm)
- Mesh size= 5mesh to 280 mesh

Uses;-

Pharmaceutical industries

Food processing industries

Filtration of liquid and gases

Brass woven wire cloth

The brass woven wire cloth can be used in the papermaking industries for dewatering.

The brass woven wire can be used as the woven wire filter cloth for solid, liquid and gas in the industries, chemical and lab.

The brass woven wire cloth can be used as insect screen or window screen

Want to purchase brass woven wire cloth from the manufacturers and wholesaler, thenVARSA WIRE NETTING is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions.

Sizes in availability

Standard length of rolls = 50ft (15mtr)

Sizes which are available

- 3ft (914.4mm)
- 4 ft (1219.2mm)

Mesh size 5mesh to 280 meshes

Uses

- Mining,
- Petroleum,
- Chemical,
- Electronic
- Transport

Industrial Heavy Screen

Industrial Heavy meshes are the net formation with bigger gaps than usual. This mesh is primarily used for separating and shifting applications in the industries. The big sieve like gaps are used in mine and quarry industry, the screens are used in many other areas including water treatment, ore grading, precious metals, agriculture and food processing, coal preparation, waste management, foundries etc. Being a heavy screen, its tensile strength is strong and free screening area advantages of woven wire screens over other screening media make them suitable for sifting and separation processes.

Want to purchase industrials heavy screen from the manufacturers and whole seller, then VARSA WIRENETTING is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions.

Sizes in availability

Standard length of rolls =50ft (15mtr) and 100ft (30m)

Sizes which are available

- 2ft (609mm)
- 2 ½ ft (762mm)
- 3ft (914.4mm)
- 3 ½ ft (1066mm)
- 4 ft (1219.2mm)
- 5 ft (1524mm)

Wire gauze availability= 1mm to 8mm

Use:-

- Water treatment
- Ore grading
- precious metals
- agriculture
- food processing
- coal preparation

Stainless Steel Woven Wire Cloth

The stainless steel woven wire cloth is widely used in printing of electronics, textiles, ceramics, glass and other industries. Stainless steel woven wire cloth can be used as woven wire filter cloth to filter liquid, solid and gas in the filtering industries, such as the filter discs, filter tubes, dipping baskets, test sieves, filter elements or strainers.

Stainless steel woven wire cloth can be used as window screens in the residences to prevent insects from entering the houses. Stainless steel woven wire cloth is used in an almost unlimited number of applications and industries. Some of the common application include filtering, protection, feeding decorating.

Want to purchase **stainless steel woven wire cloth** from the manufacturers and whole seller, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions.

Sizes in availability

Standard length of rolls =50ft (15mtr)

Sizes which are available

- 3ft (914.4mm)
- 4 ft (1219.2mm)

Mesh size= 5mesh to 280 mesh

Uses

- Industrial sieves
- Aviation
- Military
- Chemical filters
- Architectural decoration

Square Opening Woven Wire Cloth

Square opening woven wire cloth is widely used in the window screens to prevent insects or mosquitoes from entering the houses.

Square opening woven wire cloth can be used in the filter industries, such as the filter tube, filter basket or other types.

Want to purchase **square opening woven wire cloth** from the manufacturers and whole seller, then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions.

Sizes in availability

Standard length of rolls =50ft (15mtr)

Sizes which are available

3ft (914.4mm)

4 ft (1219.2mm)

Mesh size= 5mesh to 280 mesh

Uses

- Filtration
- Minimesh
- Window screen

Vibrating Mesh

Vibrating Screens are one of the unique product in the market today. It is compiled of mainframe, eccentric block, and screen web, rub spring, electric motor, coupler etc. An ample range of highly efficient circular vibrating screen is provided by us. Our circular vibrating mesh is available in various sizes and dimensions and can be customized as per the client's demands. Want to purchase **vibrating mesh** from the manufacturers and whole seller, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions

Sizes in availability

Sizes which are available =Up to 4ft

Uses

- Stone Crushers
- Coal Mining
- Other Mining Industries
- Scalping

Decorative Wire Mesh

Decorative Wire Mesh is unique designs in wire mesh category. It is a mix of wire mesh designs with art and craft for decorative purposes in our homes and furniture. Decorative Wire Mesh can be woven in both Stainless Steel and other metals like copper, bronze and brass also.

Want to purchase **decorative wire mesh** from the manufacturers and whole seller, then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions

Sizes in availability

Standard length of rolls =50ft (15mtr)

Rod diameter=0.5mm - 4mm

Cable diameter=0.45mm - 3mm

USES

- Furniture
- Home and Décor
- Fire Screens

Welded Wire Mesh Welded wire mesh is popularly called welded wire fabrics.

It is an electric fusion welded and prefabricated joined grid consisting of a series of parallel wires with accurate spacing welded with cross wires at the required gap mesh.

Want to purchase **Welded wire mesh** from the manufacturers and whole seller, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions

Sizes in availability

Standard length of rolls =50ft (15mtr)

Sizes which are available

- 3ft (914.4mm)
- 4 ft (1219.2mm)
- 5 ft (1524mm)
- 6 ft (1828.8mm)

WIRE GAUZE AVAILABILITY:-1.22mm to 5mm

Uses.

- Horticulture Industry
- Industrial Guarding
- Small gabions
- Radiator grills

Agro Shade Net / Shadow Mesh

We offer a wide range of high quality Agro Shade Nets and Packaging Nets. These nets are made from 100% virgin HDPE and are treated with color master batches and Ultra-violet (UV) stabilizers. These nets are classified by the amount of sunlight that can pass through it. These products are mainly used in applications related to crop protection and agriculture.

Want to purchase Agro **shades net/shadow mesh** from the manufacturers and whole seller, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions.

Sizes in availability

Standard length of net=3mtr*50 meter

Other sizes are also available

USES

- Crop protection
- Agriculture

Hexagonal Wire Mesh

The shape of woven wires is hexagonal in shape. These are also called Chicken Wire Mesh or MurgaJali, because of its usage in poultry industry. Also it is used as a decorative mesh for various purposes like home décor and furnishing industry. It is made from stainless steel and Galvanized Iron Drawn Wire.

Varsa Wire Netting is counted in the list of appreciable Hexagonal Wire Mesh Manufacturers. This is specially designed in the shape of the hexagon. We are offering our product range in different sizes in order to meet the diversified requirements of the buyers. We believe in maintaining international quality standards in our products. To ensure this, we manufacture our range using premium grade raw materials. Apart from this, we provide it with the anti-rust coating in order to offer durability and reliability.

Want to purchase Hexagonal **wire mesh** from the manufacturers and wholesaler, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions

Sizes in availability

Standard length of rolls =82ft (25mtr)

Sizes which are available

- 1.0m (3.2ft)
- 1.2m (4.0ft)
- 1.5m (5.0ft)
- 2.0m (6.5ft)

Wire gauze availability= 0.30 mm to 0.91mm

Mesh size;-

0.5 inch (1/2)

0.75 inches (3/4)

Uses

- Poultry Farms
- Agriculture
- Covering Glass and Rock Wool for insulation purposes
- Construction

EXPENDED METALS MESH

Expanded metal mesh is made of a single solid sheet of compressed and stretched material. The expanded metal grating is useful for heavyweight custom parts washing applications, as well as providing open space for air flow and drainage.

This Expanded Metal Mesh is fabricated using sheets of solid metals like Mild Steel, Galvanized Iron, Stainless Steel and Aluminum. Expanded metal mesh has a very high strength to weight ratio, much higher than standard sheet metal. This means that it is ideal for walkways etc.

We are leading manufacturer of Expanded Metal Mesh. Want to purchase expanded **metal mesh** from the manufacturers and wholesaler, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions

Expanded metal mesh

Size in availability

Standard length of rolls =According to customers

Sizes which are available

- 2.0ft (609.6mm)
- 2.5ft (762mm)
- 3.0ft (914.4mm)
- 4.0ft (1219.2mm)
- 5.0ft (1524.0mm)

Per sq feet grammage = 0.20gm to 400gm per sq feet

Metals

- **GI (galvanized)**
- **M.s (mild steel)**
- **AL (aluminum)**
- **S.S (stainless steel)**

USES:-

- Walkways
- Ramps
- Fencing
- Shot Blasting Parts
- Filtration.
- Window fitting
- Construction
- Mosquito proof racket
- Industrial purpose

Double crimped wire mesh

Varsa wire netting (India) is engaged in the manufacturing of double crimped wire mesh also known as plain weave. These are manufactured and designed by using high-grade raw material and latest technology. The double crimped wire mesh is used widely for the high quality, performance and durability. It is made up of carbon iron wire, galvanized steel wire or stainless steel wire. The wire is pre-crimped before weaving. It is used generally for screening in mines, coal factories, petrochemical industries, floor gratings, poultry protection, building construction, paving and more. The double crimped wire mesh has longer service life and is corrosion and abrasion resistant. It also offers robust construction.

Want to purchase double **crimped wire mesh** from the manufacturers and wholesaler, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions

crimped wire mesh

Sizes in availability

Standard length of rolls =50ft (15m)

Sizes which are available

- 3.0ft (914.4mm)
- 4.0ft (1219.2mm)
- 5.0ft (1524.0mm)
- 6.0ft (1828.8mm)
- 7.0ft (2133.6mm)

Hole size =4mm to 25mm

Wire gauze Availability = 0.9mm to 4mm

Metals

GISS

Uses:-

- Agricultural
- Domestic
- Industrial

BIRDS SPIKES

Bird Spike Pigeon Control Spikes can be attached to Building Ledges, Window swills, Roof Perimeters, Air Conditioners, Rooftop, Walls, Building Projections, Sign Posts, and Equipment WEATHER PROOF: 100% Clear Polycarbonate Bird Spikes, Ultra Violet Protected Sun and Weather Proof (Not Affective by Extreme Temperature).Can resist temp up to - 20C to 100C. Do not spread with fire.100% hygienic and safe. DOES NOT HARM BIRDS: Bird proof Polycarbonate Bird Control Spikes are used to Deter Birds COST OF HOUSE KEEPING Decreases cost of housekeeping in long-term cleaning cycles. Helps in keeping floor clean and stain free. Keeps birds away, which may spread diseases. Want to purchase bird's **spikes** from the manufacturers and wholesaler, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions

Bird Spike

Sizes in availability

Standard SIZE= 1inch*1ft

Uses:-

- Air conditioner
- Building ledges
- Street lighting
- Commercial signage

Chain link fencing

The Chain Link fencing is quite durable and in demand as compared to the galvanized chain link fencing. This kind of fencing is majorly used playgrounds, highways, railways, airports and more. This kind of fencing is quite strong, flexible and offers flexible construction. The materials used in manufacturing of SS Chain Link Fencing are basically high quality low carbon steel wire, stainless steel wire, aluminum alloy wire and more. It is used in fields, green fencing, waterways, residences and more. This kind of fencing offered by the company are affordable and durable and is of premium quality.

Want to purchase chain link **fencing** from the manufacturers and wholesaler, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions.

Sizes in availability

Standard length of rolls =50ft (15m)

Sizes which are available

- 2ft (609.6mm)
- 2.5ft (762mm)
- 3.0ft (914.4mm)
- 4.0ft (1219.2mm)
- 5.0ft (1524.0mm)
- 6.0ft (1828.8mm)
- Up to 12ft

Mesh size =2inch

3inch

4inch

Hole size =4mm to 25mm

Wire dia = 2.5mm to 4mm

Metals

GI+PVC

Uses: -

- Fencing at the boundary of any area
- Rugged construction
- Long service life
- High performance

MONKEY SPIKES

Monkeys are a problem often faced by many residential, commercial, agricultural and industrial establishments. Monkeys can cause major damage to property unknowingly and can easily become a major threat to the normality of life.

We bring to you poly-carbonated Monkey Control Spikes. The Anti Monkey Spikes are created to keep monkeys off buildings and other places by scaring them and eliminating their landing and resting areas, these monkey scare spikes are effective when it comes to making sure that the menace is taken care of once and for all. Monkey Control Spikes can easily be mounted on the building's ledges and other open places that give monkeys the freedom to traverse in and around the building.

Want to purchase monkey **spikes** from the manufacturers and wholesaler, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions.

Sizes in availability

- 2inch*1ft

Uses:-

- Home
- Hospitals
- Office
- Schools

ANTI BIRDS

This is the most recommended net. Very strong and durable its totally transparent hence aesthetically most appropriate for household purpose. The breaking strength of Nylon filament is the highest of all polymers. Easy to clean with blowing air it is as good as new always.

Bird netting mesh kabutarjali is an effective way to control and repel birds from your windows and balconies without harming them. We want birds to stay away because breathing dust or water droplets containing contaminated bird droppings can lead to several diseases.

Want to purchase anti **birds** from the manufacturers and wholesaler, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions.

Sizes in availability

Sizes which are available

- 8ft*8ft (2438.4mm *2438.4mm)
- 8ft*12ft (2438.4mm*3657.6mm)
- 10ft*15ft (3048mm*4572mm)
- 3m *30m (3000mm*30000mm)

Colors: - white, Green, blue

Uses:-

- Garden,
- Cricket ground,
- Farmland

BLACK WELDED WIRE MESH

Black Welded wire mesh is popularly called vinyl coated wire mesh. It is an electric fusion welded and prefabricated joined grid consisting of a series of parallel wires with accurate spacing welded with cross wires at the required gap and after coated with vinyl.

We at Varsha Wire Netting use hi-tech machines to produce the mesh with precise the dimensional control. As an industry giant, we use quality raw metals and professional working hands so that we can provide you world class welded wire mesh. We are a bulk manufacturer so we can fulfill your order in a very short period as well as cost-effective

Want to purchase black **welded wire mesh** from the manufacturers and wholesaler, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions.

Sizes in availability

Standard length of rolls =50ft (15mtr)

Sizes which are available

- 3ft (914.4mm)
- 4 ft (1219.2mm)

- 5 ft (1524mm)
- 6 ft (1828.8mm)
- Mesh size:- 25mm to 100 mm
- Wire gauze availability: - 2mm to 6mm

USES:-

- Agricultural,
- Domestic
- Horticulture Industry
- Industrial Guarding
- Small Gabions

Fiberglass mesh

Fiberglass mesh is fiberglass fabric as the substrate ,the anti-emulsion polymer coating after immersion, which has good alkali resistance ,flexibility and strong tensile strength .

Want to purchase fiberglass **mesh** from the manufacturers and wholesaler, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions

Sizes in availability

Standard length of rolls =50mtr and 100 meter

Gram per sqft; - 25gsm to 100gsm

Uses:-

- Reinforce cement
- Stone
- Wall materials
- Roofing (Roof top)
- Exterior insulation
-

GABION WIRE MESH

GABION WIRE MESH have been extensively used all over the world for erosion control, Retaining Wall Bank Stabilization, Channel linings, Weirs & Culverts protection, Highways and so many other applications.

It is technically proven way for erosion control and retention of earth. Gabions strength comes from a double twisted hexagonal mesh of steel wires, thus in the event of accidental damage or break of one or more wires, the double twisted wire configuration ensures that minimal strength reduction occurs.

Want to purchase gabion **wire mesh** from the manufacturers and wholesaler, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions

Sizes in availability

Standard length of mesh=50 ft (15m)

Mesh Sizes: - 1inch

2, 5 inch

4inch

Wire Gauge:-2.5mm

3.0mm

4.0mm

Uses

- Mass gravity retaining wall Structures.
- Landscaping &Architectural Structures.
- Hydraulic structures, dam, culverts.
- Erosion and scour protection.
- Reinforced soil walls.
- Perimeter wall Structures.

CONCERTINA COILS

CONCERTINA COILS or PUNCHEDTAPE CONCERTINA WIRE COILS are spirals consisting of a sharp-edged tape crimped to a spring steel core wire duly galvanized against rusting. Each turn of the concertina coil has a series of sharp edges (barbs) all along its length at regular intervals. It is quick to install as a twin barrier (comprising of one roll inside another).

Want to purchase **concertina coils** from the manufacturers and wholesaler, and then **VARSA WIRE NETTING** is one stop destination for all your requirements. We are offering our product range in very good specifications in order to fulfill the challenging requirements of the industry. Our comprehensive range is available in various dimensions

Sizes in availability

- 1.5 ft (457.2mm)
- 2.0 ft (609.6 mm)
- 3.0 ft (914.4 mm)

Uses:-

- airplane terminals,
- railways stations,
- police camps,
- military base camps,
- agricultural land,
- amusement parks,
- border regions

Aluminum grill
